

These Covid-19 Rules are in addition to the pre-Covid BC Randonneur rules for [Brevets](#) and [Permanents](#). They may be updated to address changing conditions.

1 Ride Rules (Brevets and Permanents)

You may participate in a BC Randonneurs Cycling Club event if the following conditions apply:

- you are 19 years or older,
- you are a current (2022) Club member and have agreed to the Annual Membership Release,
- you have registered for the event on your own behalf and have agreed to the Event Participant Release,
- you have obtained an event Control Card file issued by the organizer,
- you are not recommended to isolate based on medical evaluation or the [BC Covid-19 Self Assessment Tool](#)

Individuals who ride the event route in contravention of these rules, will not receive Club recognition for the distance, are not covered by the Club's liability insurance, and may be subject to further sanctions.

2 Registration for Brevet Events

On-line registration process is required. This process supports the Club's efforts to minimize rider congestion and ensure Membership and Release compliance.

Participants must:

- register using the on-line registration link found on the Event Schedule page, and
- register **at least 2 days prior** to the Event start time, unless allowed otherwise by the Ride Organizer.

3 Registration for Permanent Events

The current Permanent ride registration [procedures](#) are unchanged, except that riders must self-assess and comply with the terms in 1) above, and the current Event Participant Release (aka Waiver) must be signed and submitted to the Permanents Coordinator prior to the ride.

4 Proximity Risks

Physical Distancing between riders, ***is no longer required in all outdoor settings, whether riding or not.***

Riders must respect the health protocols of any indoor venue they occupy immediately prior, during and immediately after the event, which may include requirements related to:

- Physical distancing
- Mask wearing
- Proof of Vaccination

5 Routes / Controls

Expect events to be unsupported unless the event page indicates otherwise. Control may information or self-signed type. Volunteers/organizers may NOT be at the start nor the finish.

Riders may organize personal support (e.g., water, food), at designated Controls only.

During the event, riders may alter the route as needed to respect local travel advisories, and still maintain the target ride distance.

6 Communication

- Monitor and follow any Provincial Health orders.
- Monitor the [randonneurs.bc.ca](#) home page and the email address which you used to register.
- For Brevets, advise the organizers at registration@randonneurs.bc.ca:
 - if you determine in advance that you will be unable to ride on your registered start date,
 - immediately upon your ride completion, with your ride result (time, DNS or DNF), or
 - if you have any questions, concerns, or recommendations.
- For Permanents, contact the [Permanents coordinator](#).
- If you feel yourself becoming ill on the ride, stop and advise any other riders you are with. Consider means to safely extract yourself from the event. This might include calling for pickup, short cutting the route home, or using public transit while wearing a mask and keeping your distance.
- Advise the Ride Organizer if you abandon the Event for any reason.
